Experience the Best of New Zealand

You know that there are plenty of reasons why New Zealand has been called a lifestyle superpower. It is a country that offers a rare mix of quality of life with innovative business and investment opportunities. It is a place where people value freedom, community and the natural environment that is so much part of the New Zealand way of life.

The New Zealand government, working closely with business experts, is actively seeking investors with the capital, skills and networks to make a genuine contribution to the continued growth of the economy. Using the government's investor migration policies, there has been real growth in the numbers of US citizens investing in New Zealand and gaining permanent residency in the process.

The government is committed to supporting this growth and is holding a series of intimate, exclusive events in San Francisco, New York and Chicago in late October 2014.

If you have business or personal contacts who you think are interested in the New Zealand opportunity and you think can make a real contribution to the country, we would invite you to pass on this invitation and encourage them to reserve an invitation.

Places are limited so it would be appreciated if you could encourage them to register at: www.experiencebestofnzny.eventbrite.co.nz as soon as possible.
